

Training and Workshops

Empower your staff to deliver operational efficiency

People are your organisation's most valuable asset. Giving them appropriate skills and knowledge increases your organization's efficiency and bottom line.

ABS prepares and delivers a tailored package based on your own brief or our assessment of your training needs.

Training Topics

For anyone with an interest in making buildings efficient for owners, occupiers and occupants we offer training in:

- Carbon and Energy Management
- Sustainable Facilities Management
- Understanding Building Services
- Project Management
- Performance Based Contracts
- Continuous Commissioning

Why invest in training and workshops?

- ✓ Get everyone working towards common goals
- ✓ Increase the knowledge base of the organisation
- ✓ Increase staff motivation and productivity
- ✓ Increase efficiency and building performance
- ✓ Increase occupant satisfaction

How does the service work?

We recommend that the initial step for a new training programme is an assessment of the organisation's training needs. We can then propose a training programme that will be to the mutual benefit of the people and the business they serve.

Why ABS consulting?

Approach - All of our training courses are tailored to meet the specific needs of the client and the objectives are agreed with the client at the briefing stage. The courses include motivational as well as technical content and are focused on encouraging delegate participation and interaction.

Trainers- Our trainers are all practising engineers and managers with a wealth of experience. Our courses are based on best practice and the experience of the trainers. Where appropriate, case studies are used to illustrate key points.

Our clients include:

- British Airport Authority (BAA)
- CIBSE
- E.ON
- Glaxo Smith Kline
- Imperial College London
- Imperial College Healthcare NHS Trust
- Kingston Hospital NHS Trust
- Lloyds TSB
- London Business School
- Nationwide Building Society
- Royal Bank of Scotland
- Toyota

Making the most of human capital
